👤 My portfolio

SUMMARY

Full Stack Developer with hands-on experience in React.js, Angular, Next.js, Node.js, Nest, JavaScript, and frontend/backend development. Skilled in problem-solving, performance optimization, and building responsive web applications. Certified in MEARN Stack development, with a strong ability to collaborate in cross-functional teams. Eager to deliver efficient solutions and grow in a dynamic work environment.

EXPERIENCE & INTERSHIPS

Software Engineering Fundamentals internship Program

📅 11/2023 - 03/2024

Information Technology Institution (ITI).

- Mastered foundational software engineering principles and development best practices.
- Developed key projects emphasizing problem-solving and software design patterns.

MEARN Stack Development internship Program

📅 05/2024 - 10/2024

Information Technology Institution (ITI).

- Intensive training in modern web development
- Focus on React.js, Angular, Next.js, Node.js, Nest and full-stack applications
- Ranked in top 3 among program participants

PROJECTS

Mostaqel Clone (Github | Live Demo)

Technologies: React.js, Next.js, Angular, Node.js, MongoDB, Redux, Material-UI, Axios

- A full-stack freelancing platform built with modern web technologies.
- Developed a user-facing interface with Next.js and styled using Bootstrap for responsive design. [🔗](#)
- Implemented robust server-side functionality using Node.js. [🔗](#)
- Built an admin panel using Angular with intuitive management tools for site administrators. [🔗](#)

Movie App (Github | Live Demo)

Technologies: React.js, Redux Toolkit, node.js, REST APIs

- Developed user-friendly interface following best practices
- Implemented efficient workflows for content management
- Utilized analytical thinking for complex feature development
- Maintained clear documentation and coding standards

E-commerce Node.js (Github)

- A robust e-commerce platform built with Node.js, offering seamless product management
- user authentication, and secure payment processing. Designed to handle complex backend operations efficiently, ensuring a smooth shopping experience

E-commerce vanilla JS (Github)

Technologies: JavaScript, CSS, HTML

- Implemented shopping cart increasing average order value by 25%
- Achieved 98% mobile responsiveness score

Technical Skills

- **Frontend Development:** React.js, Angular ,Next.js , JavaScript, HTML5, CSS3 , Typescript , Tailwind CSS , Bootstrap , material UI , Redux, User Interface Design , Next-Auth
- **Backend Development:** Node.js, Nest, Express.js, RESTful APIs, Mongo DB, Socket IO , GraphQL APIs
- **Programming Concepts:** Object-Oriented Programming (OOP), Software Engineering Principles
- **Testing& Quality:** Performance Testing, Debugging, Unit Testing - Version Control: Git, GitHub, Vercel , Firebase.
- **Development Practices:** Agile Methodologies, Code Review, Troubleshooting, Software Design Patterns

SOFT SKILLS

- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities
- Self-motivated with attention to detail
- Eager to learn and adapt to new technologies

EDUCATION

Bachelor of Law
South Valley University

📅 10/2017 - 10/2021 📍 qena - Egypt

CERTIFICATIONS

- Full-stack Development (MEARN) (2024)
- Software Engineering Fundamentals (2024)

Languages

- Arabic (Native)
- English (Professional Working Proficiency)

Additional information

Military service : Completed.
