SUMMARY

Junior Full Stack Developer with hands-on experience in React.js, Angular, Next.js, Node.js ,Nest , JavaScript, and frontend/backend development. Skilled in problem-solving, performance optimization, and building responsive web applications. Certified in MEARN Stack development, with a strong ability to collaborate in cross-functional teams. Eager to deliver efficient solutions and grow in a dynamic work environment.

EXPERIENCE & INTERNSHIPS

Software Engineering Fundamentals internship Program
📅 **11/2023 - 03/2024**

Information Technology Institution (ITI).

- Mastered foundational software engineering principles and development best practices.
- Developed key projects emphasizing problem-solving and software design patterns.

MEARN Stack Development internship Program
📅 **05/2024 10/2024**

Information Technology Institution (ITI).

- Intensive training in modern web development
- Focus on React.js, Angular, Next.js, Node.js, Nest and full-stack applications

Web Development Internship – ScholarX
📅 **02/2025 04/2025**

schlarX (https://www.scholar-x.com)

- Contributed to frontend and backend development of the ScholarX platform.
- Implemented responsive and user-friendly components using React.js

PROJECTS

Mostaqel Clone (Github | Live Demo)

Technologies: React.js, Next.js, Angular, Node.js, MongoDB, Redux, Material-UI, Axios
- A full-stack freelancing platform built with modern web technologies .
- Developed a user-facing interface with Next.js and styled using Bootstrap for responsive design. 🔗
- Implemented robust server-side functionality using Node.js. 🔗
- Built an admin panel using Angular with intuitive management tools for site administrators. 🔗

Learning Platform (Live)

Technologies: React.js, Node.js, MongoDB, Context API, REST APIs
- Developed a comprehensive learning management system with course and lesson management
- Utilized modern React patterns including Context API for state management

Movie App (Github| Live Demo)

Technologies: React.js, Redux Toolkit,node.js , REST APIs
- A dynamic movie platform built with React.
- Built a dynamic movie platform for discovering and watching the latest films.

E-commerce vanilla JS (Github)

Technologies: JavaScript, CSS, HTML
- Implemented shopping cart increasing average order value by 25%
- Achieved 98% mobile responsiveness score

Skills

- **Frontend Development**: React.js, Angular ,Next.js , JavaScript, HTML5, CSS3 , Typescript , Tailwind CSS , Bootstrap , material UI , Redux, User Interface Design , Next-Auth
- **Backend Development**: Node.js, Nest, Express.js, RESTful APIs, Mongo DB, Socket IO , GraphQL APIs

- **Programming Concepts**: Object-Oriented Programming (OOP), Software Engineering Principles
- **Testing& Quality**: Performance Testing, Debugging, Unit Testing - Version Control: Git, GitHub, Vercel , Firebase.
- **Development Practices**: Agile Methodologies, Code Review, Troubleshooting, Software Design Patterns

EDUCATION

Bachelor of Law
South Valley University

🗓 10/2017 - 10/2021   📍 qena - Egypt

Languages

- Arabic (Native)
- English (Professional Working Proficiency)
