PROJECTS

1) **Mostaqel Clone GitHub:** Click here| **Live Demo:** Click here

Description: A full-stack freelancing platform built with modern web technologies

- **Frontend: (GitHub:** Click here)
  - User-facing interface developed with **Next.js** and styled using **Bootstrap** for responsive design.
  - Integrated dynamic content display and seamless user experience.
- **Backend: (GitHub:** Click here)
  - Implemented using **Node.js**, ensuring robust server-side functionality.
  - Integrated with secure authentication and payment processing systems.
- **Admin Panel:(GitHub:** Click here)
  - Built using **Angular**, offering intuitive and efficient management tools for site administrators.

2) **movie App (GitHub: Click here| Live Demo Click here)**

Description : A dynamic movie platform built with **React** for discovering and watching the latest films. Utilizes **Axios** for API integration, **Redux Toolkit** and **Context API** for state management, and **custom hooks** for efficient data handling.

3) **E-commerce Nodejs (**GitHub: **Click here**)

Description: A robust e-commerce platform built with **Node.js**, offering seamless product management, user authentication, and secure payment processing. Designed to handle complex backend operations efficiently, ensuring a smooth shopping experience.

4) **E-commerce js project (GitHub :Click here| Live Demo: Click here**)

Description : A simple e-commerce website built using **HTML**, **CSS**, and **JavaScript**, featuring product listings, a shopping cart, and basic user interactions. Designed for a smooth and responsive shopping experience.

EDUCATION

Bachelor of Law   Oct 2017 - Oct 2021 , *South valley University, Egypt*

SOFT SKILS

- Communication skills
- Critical thinking skills
- Time management
- Presentation skills
- Problem solving
- Teamwork
- Self learning
- Creativity

LANGUAGES

- **Arabic**: Native
- **English** :Advanced

ADDITIONAL INFORMATION

Military service: completed.
